Hazard Mitigation Assistance Grants

FEMA's hazard mitigation assistance provides funding for eligible mitigation measures that reduce disaster losses.

"Hazard mitigation" is any sustainable action that reduces or eliminates long-term risk to people and property from future disasters.

Mitigation planning breaks the cycle of disaster damage, reconstruction and repeated damage. Hazard mitigation includes long-term solutions that reduce the impact of disasters in the future.

FEMA's Hazard Mitigation Grant Program provides funding to state, local, tribal and territorial governments so they can develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses in their communities. When requested by an authorized representative, this grant funding is available after a presidentially declared disaster.

In this program, homeowners and businesses cannot apply for a grant. However, a local community may apply for funding on their behalf.

All state, local, tribal and territorial governments must develop and adopt hazard mitigation plans to receive funding for their hazard mitigation projects.

State Hazard Mitigation Officers

FEMA's Hazard Mitigation Assistance grant programs are provided to eligible applicant states/tribes/territories that, in turn, provide sub-grants to local governments. Prospective [sub-applicants can consult their state/tribe/territory contact](#) for more information.

Eligible Risk Reduction Projects

Hazard mitigation includes long-term efforts to reduce risk and the potential impact of future disasters. HMGP assists communities in rebuilding in a better, stronger, and safer way in order to become more resilient overall. The grant program can fund a wide variety of mitigation projects.

These can include:

Planning & Enforcement

- Developing and adopting [hazard mitigation plans](#), which are [required for state, local, tribal and territorial governments](#) to receive funding for their hazard mitigation projects.
- Acquisition of hazard prone homes and businesses which enable owners to relocate to safer areas (acquisition).
- Post-disaster code enforcement.

Flood Protection

- Protecting homes and businesses with permanent barriers to prevent floodwater from entering (levees, floodwalls, floodproofing).
- Elevating structures above known flood levels to prevent and reduce losses (elevation).
- Reconstructing a damaged dwelling on an elevated foundation to prevent and reduce future flood losses.
- Drainage improvement projects to reduce flooding (flood risk reduction projects).

Retrofitting

- Structural retrofits to make a building more resistant to floods, earthquakes, wind, wildfire and other natural hazards.
- Retrofits to utilities and other infrastructure to enhance resistance to natural hazards (utility retrofits).

Construction

- Construction of [safe rooms](#) for both communities and individual residences in areas prone to hurricane and tornado activity.
- Slope stabilization projects to prevent and reduce losses to structures.

Title 2 CFR PART 200 - UNIFORM ADMINISTRATIVE REQUIREMENTS, COST PRINCIPLES, AND AUDIT REQUIREMENTS FOR FEDERAL AWARDS

§ 200.100 Purpose.

(a) *Purpose.*

(1) This part establishes uniform administrative requirements, cost principles, and audit requirements for Federal awards to non-Federal entities,

§ 200.101 Applicability.

(a) *General applicability to Federal agencies.*

(1) The requirements established in this part apply to Federal agencies that make Federal awards to non-Federal entities. These requirements are applicable to all costs related to Federal awards.

(2) Federal awarding agencies may apply [subparts A](#) through [E of this part](#) to Federal agencies, for-profit entities, foreign public entities, or foreign organizations, except where the Federal awarding agency determines that the application of these subparts would be inconsistent with the international responsibilities of the United States or the statutes or regulations of a foreign government.

Appropriations Project Request Guidance - Fiscal Year 2023-24

For projects meeting the definition of House Rule 5.14

Only Members of the Florida House of Representatives can officially submit an Appropriations Project Request

Your request will not be officially submitted unless all questions and applicable sub parts are answered. The information provided in the request will be posted on the House website and available for public review if an Appropriations Project Request is published by a Representative.

1. **Title of Project:** *For education projects please put the name of the school preceding the title. For example, "University of XX – new program or new building." For water projects, please put the name of the County or City preceding the title.*
2. **Date of Submission:** *This field will be automatically generated at the time of submission.*
3. **House Member Sponsor:** *The submitting member's name is automatically generated by the APR system.*
4. **Details of Amount Requested:**

- a. Has funding been provided in a previous State budget for this activity? ☐ Yes ☐ No *If "no" skip to 4d, Column E.*
- b. What is the most recent fiscal year the project was funded?
- c. Were the funds provided in the most recent fiscal year subsequently vetoed? ☐ Yes ☐ No If vetoed, check if recurring and/or nonrecurring funds:
- d. Complete the following Project Request Worksheet to develop your request. Recurring Nonrecurring

5. Is this a multi-year project requiring funding from the state for more than one year? Yes ☐ No ☐

a. How much state funding would be requested after 2023-24 over the next 5 years?

[<Click to Select>](#)

Estimate the total state funding that will be requested over the next 5 years, including the current request. Include both nonrecurring funding and any annual operating funding that will be requested when you select an answer.

b. How many additional years of state support do you expect to need for this project?

[<Click to Select>](#)

c. What is the total project cost for all years including all federal, local, state, and any other funds? Select the single answer which best describes the total project cost. If funds requested are for ongoing services or for recurring activities, select "ongoing activity".

[<Click to Select>](#)

Provide the total nonrecurring cost of the project for all years assuming the project has a beginning and a completion. Include all funds required to complete the project including federal, state, local and other funds needed. For any projects that are ongoing in nature (such as recurring administrative or operating costs) select "on-going activity – no total cost".

15. Is the project request an information technology project? Yes ☐ No ☐ **If "No" or a water project, skip to #16**

- a. Will this information technology project be managed within a state agency to support state agency program goals? Yes ☐ No ☐

- b. What is the total cost (all years) to design and build the project?

This amount should total all nonrecurring costs expected over the entire project lifecycle by fiscal year, identifying all one-time costs from project initiation to implementation.

- c. What are the ongoing (annual recurring) maintenance and operation costs once the project is completed?

This cost should total the annual amount necessary to sustain the project once completed, to include personnel (state FTE and contractors), application maintenance (such as annual software as a service (SaaS) licensing/usage costs, hardware lease/purchase), data center services, plant and facility costs (such as call center space or offices for support staff), and any other recurring costs.

- d. Can the state agency fund the ongoing annual recurring costs within its current operating budget? ☐ Yes ☐ No

- e. What are the specific business objectives or needs the IT project is intended to address?

400 maximum characters allowed *Provide a clear statement of need that describes the conditions that created, or significantly contributed to, the problem or opportunity being addressed by the project. Document the current status of the program or service and describe in detail all areas that need improvement that the project will address, i.e., current inefficiencies, problems and/or shortfalls.*

- f. Based upon the identified business objectives or needs, what are the success factors that must be realized in order for the state agency to consider the proposed IT project a success?

100 maximum characters allowed *Clearly identify the results that must be achieved from the proposed solution that will prove the project was successful. Propose any quantifiable business metrics that could be used to determine project success.*

16. Is there any documented show of support for the requested project in the community including public hearings, letters of support, major organizational backing or other expressions of support? ☐ Yes ☐ No

Please describe:

400 maximum characters allowed. *If you are unable to describe the documented show of support please answer "No." If support for the requested funding is documented select "YES." If "YES" is selected, provide the date of approval, the dates of meetings where support was documented, types of meetings, names or numbers of people or organizations writing letters of support, or any other information regarding the documented support.*

17. Has the need for the funds been documented by a study, completed by an independent 3rd party, for the area to be served? Yes ☐ No ☐
Please describe:

400 maximum characters allowed. *If you are unable to describe the documented study please answer "No." If support for the requested funding is documented by a study select "YES." If "YES" is selected, provide the title, author, and date of the report or study, who requested the study or report, and briefly describe the findings which support funding.*
